WORK EXPERIENCE

Owner

Michael Slater Consulting
Salem, Oregon | 2020–Present

Provide landscape design services to private and public clients, including installation supervision. Provide arboriculture services related to tree selection, plant health care, and collection management.

- Designed a new ornamental garden for a historical park in Salem, Oregon.
- Developed a successful proposal to rehabilitate an existing linear park in Salem.
- Co-manage a 40-acre ornamental garden in a historical public park.

President

Mission Street Parks Conservancy
Salem, Oregon | 2018–2020

Co-founded a parks conservancy and managed all aspects of its establishment: board recruitment, governance documents, tax-exempt status, budget and fundraising, branding, volunteer management, and projects. Initiated, co-designed, and managed the rehabilitation of an overgrown space. Initiated and led the writing of a plant collection policy; establishment of a GIS database; and, data collection.

President

Project Vote

Washington, DC | 2008–2017

Led a multimillion-dollar nonprofit organization focused on voting rights. Directly supervised leadership team; managed stakeholder relations; managed the strategic and annual planning process; initiated and managed specific projects; participated in litigation decisions; and, supported staff in managing projects and making critical decisions.

VOLUNTEER EXPERIENCE

President

Salem Planning Commission

Salem Planning Commission
Salem, Oregon | 2023–2024

Commissioner

Salem Planning Commission
Salem, Oregon | 2020–2023

- Initiated and successfully advocated for a solar feasibility study at the Salem airport.
- Initiated and successfully advocated for a riparian inventory to bring the City into compliance with Oregon's land use policies.
- Helped update the city's tree preservation policy and successfully advocated for its passage at the City Council.

Member

Salem Climate Action Committee
Salem, Oregon | 2023–Present

- Serve on the City's committee to oversee Salem's climate action plan.
- Secured a technical assistance grant from the National Renewable Energy Lab to develop a scope of work for Salem's municipal decarbonization plan.
